TO: Each Supervisor

FROM: Donald L. Wolfe  
Acting Director of Public Works

### **BOARD MOTION OF APRIL 5, 2005, SYNOPSIS 14 IMPORTATION OF SOLID WASTE FROM THE CITY OF LOS ANGELES TO THE LANCASTER LANDFILL**

On April 5, 2005, your Board instructed Public Works to provide data concerning the origin of trash going into the Lancaster Landfill over the past 12 months; and, in conjunction with County Counsel, research issues relative to a waste-shed or excluding waste generated in the City of Los Angeles from being dumped in the Lancaster Landfill including the feasibility, process, and legal issues and report back to your Board within 30 days with our findings.

The following is a summary of our findings:

#### **Origin of Solid Waste Disposed at the Lancaster Landfill**

Attachment A summarizes the most recent waste origin data submitted by Waste Management, Inc., the landfill owner/operator, which covers the period of January through December 2004. This information is submitted to Public Works on a quarterly basis in compliance with the State Disposal Reporting System regulations. The data shows that approximately 426,000 tons of solid waste was disposed at the Lancaster Landfill in 2004. The largest contributor to this tonnage was the City of Los Angeles, disposing approximately 204,000 tons of solid waste during the year (47.8 percent of the total disposed at the Landfill). The City of Lancaster was the second largest contributor, disposing approximately 140,000 tons of solid waste (32.8 percent of the total). The Cities of Palmdale and Santa Clarita and the unincorporated areas of the County contributed approximately 5,000 tons (1.3 percent), 600 tons (0.1 percent), and 22,000 tons (5.1 percent), respectively, of the total disposed at the landfill while the

remaining 55,000 tons (12.9 percent) originated from other jurisdictions within the County of Los Angeles.

In comparison, in 2003 approximately 375,000 tons of solid waste was disposed at the Lancaster Landfill. The increase in the disposal amount in 2004 is due to the increase of waste shipped from the City of Los Angeles which increased from 139,000 tons in 2003 to 204,000 tons in 2004.

### **Waste Origin Restrictions**

There are several landfills in the County of Los Angeles that have incorporated waste-shed restrictions or excluded waste generated from other jurisdictions. These restrictions fall into three general categories: (a) restrictions imposed through the land use permit process via conditions of approval, (b) restrictions imposed through the adoption of an ordinance establishing a waste-shed or excluding waste from specific jurisdictions, and (c) restrictions imposed administratively by the facility owners. These categories are described in more detail below:

a) Restrictions via the Land Use Permit Process

Waste origin restrictions have been imposed in the past at landfills within the County through the land use permit process via conditions of approval. For example, the Conditional Use Permit (CUP) for the Sunshine Canyon Landfill—County Extension [Case No. 86-312(5) approved by the Board of Supervisors on November 22, 1993] originally contained a clause, Condition 10(d) which restricted the acceptance of solid waste from the City of Los Angeles under certain conditions. Specifically, Condition 10(d) provided that if the City did not grant a permit to expand the portion of Sunshine Canyon Landfill within the City within one year, then “the permittee shall thereafter exclude waste from City-operated trucks from any portion of the landfill within County territory.” The CUP also provided for the exclusion of “all waste collected within the corporate limits of the City and transported in City-operated or commercial trucks” if the City had not granted a landfill permit for Sunshine Canyon within 18 months.

This City-use restriction was subsequently removed from the permit pursuant to an agreement that settled pending lawsuits between the County, the City of Los Angeles, and Browning-Ferris Industries, Inc.

Currently, there is a pending application with the County of Los Angeles Department of Regional Planning for a revision of the CUP for the Sunshine Canyon Landfill to allow the owner/operator to, among other

things, combine the existing landfill in the unincorporated County territory and the landfill on the City of Los Angeles' portion of the site (currently under development) into a single operation. Draft conditions of approval for the project have been prepared which stipulate that,

"[if] the City of Los Angeles denies the permittee's request to complete any of the phasing designs specified in the City approval granted in Ordinance No. 172933 of the City of Los Angeles, Condition B.2.d, the permittee shall thereafter exclude all waste collected within the corporate limits of the City and transported in City-operated or commercial trucks under contract with the City, from any portion of the landfill within County territory."

Another example is the Burbank Landfill which is owned and operated by the City of Burbank. The CUP for the Landfill (CUP 2000-16) restricts the acceptance of waste to only that which is generated within the City of Burbank.

b) Restrictions via Ordinance

Waste origin restrictions have also been imposed at several landfills in the County of Los Angeles through the adoption of an ordinance. The following are examples of such ordinances adopted in the past. All but one of these ordinances applies to landfills owned by the public entity adopting the ordinance.

- Calabasas Landfill (County Unincorporated Area) – This Landfill is owned by the County and operated by the County Sanitation Districts of Los Angeles County. On February 13, 1991, the Board of Supervisors adopted Ordinance No. 91-0003 amending Title 12 of the County Code to provide that the Calabasas Landfill may not be used for refuse originating outside a certain identified waste-shed area (Attachment B). Chapter 12.48 defines the use of the Landfill and delineates the waste-shed area.
- Puente Hills Landfill (County Unincorporated Area) – This Landfill is owned and operated by the County Sanitation Districts. On October 28, 1981, the Districts' Board of Directors adopted an ordinance prohibiting disposal of any refuse at the Puente Hills Landfill site which has its origin within any city having a population in excess of 2,500,000 and which either owns or is entitled to the

use or possession of at least one operating sanitary landfill (Attachment C).

- Solid Waste Facilities Operated by the Sanitation Districts – On July 25, 1984, the Districts' Board of Directors adopted Ordinance No. 7 prohibiting disposal of any refuse at the Districts' solid waste facilities which has its origin within any other county having a population in excess of 1,500,000 and which either owns or is entitled to the use or possession of at least one operating sanitary landfill (Attachment D). On July 14, 2003, Ordinance No. 7A was adopted amending Ordinance No. 7, Regulation of Extent of Use (Attachment E). The amendment increased the population restriction from 1,500,000 to 2,000,000.
- Scholl Canyon Landfill (City of Glendale) – This Landfill is owned by the City of Glendale and the County and is operated by the Sanitation Districts. On October 6, 1987, the Glendale City Council adopted Ordinance No. 4780 (Chapter 8.56 of the City of Glendale Municipal Code) which defined a waste-shed area for the Scholl Canyon Landfill (Attachment F).
- Sunshine Canyon Landfill (City of Los Angeles) – On December 10, 1999, the City of Los Angeles approved Zoning Ordinance No. 172933 amending Section 12.04 of the Los Angeles Municipal Code by amending the zoning map. Condition B.1., Limitation/Prohibition on Uses, of the [Q] Qualified Conditions of Approval, states, "No waste shall be accepted for disposal in the landfill originating from outside of the County of Los Angeles."

c) Restrictions Imposed Administratively

In the past, public agencies that own/operate landfills in the County of Los Angeles have also established waste origin restrictions administratively. This includes:

- Brand Park Landfill – This Landfill is located in the City of Glendale and is owned and operated by the City. Use of this Landfill is limited to the City of Glendale Department of Public Works.

- San Clemente Landfill – Use of this Landfill is limited to the United States Navy which owns and operates the landfill.
- Pitchess Honor Rancho Landfill – This is a small closed Landfill previously operated by the Los Angeles County Sheriff's Department. The Landfill's use was limited to waste generated by the Peter J. Pitchess Detention Center.

### **Legal/Feasibility Issues**

Legal issues which affect the feasibility of imposing waste origin restrictions at the Lancaster Landfill, which is privately owned and operated, will be addressed by County Counsel via separate correspondence.

### **Other Considerations**

Due to the limited landfill space within the County of Los Angeles and continued increases in waste generation (resulting from population and economic growth), there is now a disposal capacity shortfall in the County of Los Angeles. Although the County has been a net exporter of solid waste for many years, its waste exports to locations outside the County have dramatically increased over the last three years (we exported in excess of 7,000 tons per day in 2003 compared to 2,500 tons per day in 2000) and this trend is expected to continue in the future.

The free flow of solid waste across county boundaries has been beneficial to the County of Los Angeles, the cities in our County, and to other cities and counties throughout the State. Therefore, to minimize any potential retaliatory action from adjacent counties and maintain the free flow of waste across county boundaries, we recommend that any proposed restriction on the origin of the waste accepted at the Lancaster Landfill be narrowly tailored so as to limit the restriction to City of Los Angeles waste, and only under certain conditions, such as the City failing to permit disposal capacity within its jurisdiction.

MINUTES OF THE BOARD OF SUPERVISORS  
COUNTY OF LOS ANGELES, STATE OF CALIFORNIA

Violet Varona-Lukens, Executive Officer  
Clerk of the Board of Supervisors  
383 Kenneth Hahn Hall of Administration  
Los Angeles, California 90012

Acting Director of Public Works  
County Counsel  
Director of Planning

At its meeting held April 5, 2005, the Board took the following action:

14

The following item was called up for consideration:

Supervisor Antonovich's recommendation to direct the Acting Director of Public Works to provide data concerning the origin of trash going into the Lancaster Landfill over the past 12 months; and report back to the Board within 30 days concerning steps necessary to institute a waste-shed for the Lancaster Landfill, to the extent authorized by law; also direct the Director of Planning to report back to the to the Board within 30 days concerning the status of the pending Conditional Use Permit modification application filed by the owner of the Lancaster Landfill; and send a five-signature letter to the Mayor and City Council of the City of Palmdale requesting that the City consider similar measures for the Antelope Valley Landfill in the City of Palmdale.

Supervisor Antonovich made the following statement:

"Recent discussions concerning the disposal of solid waste in Los Angeles County have raised concerns about the exporting of trash from the City of Los Angeles to the Antelope Valley. Residents in the Antelope Valley are concerned, with good reason, about local landfills accepting trash from outside of the Antelope Valley. In addition to the fundamental question of fairness, trucks driving from Los Angeles to the Antelope Valley increase traffic congestion and worsen air quality.

(Continued on Page 2)

14 (Continued)

"The Antelope Valley freeway (Route 14) already experiences severe congestion. Adding vehicles that haul trash, both the smaller residential trash trucks, and the semi-tractor trailers that haul waste from transfer stations to landfills, present a serious safety threat to motorists. This would be avoided if haulers would utilize local landfills. Commuters in particular are already frustrated with congestion, and the County should take steps to prevent the addition of trucks that delay their trips and endanger their safe passage. The City of Los Angeles has not planned well for its long-term solid waste disposal needs. City officials have closed or severely constrained most landfills in the City, and City staff has performed only minimal investigation of alternatives, such as rail-haul. The majority of solid waste generated in the City of Los Angeles is disposed in landfills in County unincorporated areas. The residents of the Antelope Valley should not be expected to shoulder the burden of solid waste disposal for the residents of the City of Los Angeles, particularly given the City's failure to address the issue on its own.

"There are two landfills in the Antelope Valley. One of these, the Lancaster Landfill, is located within County unincorporated areas and is subject to the County's land-use and permitting authority. The other landfill, the Antelope Valley Landfill, is located in the City of Palmdale, which is therefore subject to the City's land-use and permitting authority. Officials of both the County of Los Angeles and the City of Palmdale need to research the origins of trash going to these two landfills and take appropriate steps to ensure that the landfills are being utilized in a prudent manner."

Lyle Talbot addressed the Board.

After discussion, on motion of Supervisor Antonovich, seconded by Supervisor Knabe the Board took the following actions:

1. Directed the Acting Director of Public Works to provide data concerning the origin of trash going into the Lancaster Landfill over the past 12 months;
2. Directed the Acting Director of Public Works, in conjunction with County Counsel, to research issues relative to a waste-shed or excluding waste generated in the City of Los Angeles from being dumped in the Lancaster Landfill including the feasibility, process and legal issues and report back to the Board within 30 days; and

(Continued on Page 3)

14 (Continued)

3. Directed the Director of Planning to report back to the Board within 30 days concerning the status of the pending Conditional Use Permit modification application, filed by the owner of the Lancaster Landfill.

## **Calabasas Landfill Ordinance**

AMENDMENT TO  
AMENDED JOINT POWERS  
AGREEMENT - CALABASAS LANDFILL

THIS AGREEMENT, made and entered into this 13<sup>th</sup> day of February, 1991, by the COUNTY OF LOS ANGELES ("County") and COUNTY SANITATION DISTRICT NO. 2 OF LOS ANGELES COUNTY ("District"),

W I T N E S S E T H:

WHEREAS, County and District entered into an Amended Joint Powers Agreement for the establishment and operation of the Calabasas Landfill refuse disposal facility, dated April 1, 1966; and

WHEREAS, said Amended Joint Powers Agreement provides that the operation of the refuse disposal facility is within the sole and exclusive control of District, except as therein otherwise specifically limited or provided for; and

WHEREAS, County and District desire to specifically limit the above-described provision to assure compliance with County Ordinance No. 91-0003;

3796

5-2

NOW, THEREFORE, the parties agree as follows:

1. The third paragraph of Section 5 of the Amended Joint Powers Agreement - Calabasas Landfill between County and District, dated April 1, 1966, is amended to read as follows:

Except as limited by County Ordinance No.

91-0003 or as herein otherwise

specifically limited or provided for, the development, operation and maintenance of the refuse disposal facility and other activities in connection therewith are and shall be within the sole and exclusive control of District.

2. Except as otherwise provided herein, all terms and conditions of the Amended Joint Powers Agreement - Calabasas Landfill between County and District, dated April 1, 1966, shall remain in full force and effect.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly constituted officers and caused their

seals to be affixed thereto and the same attested on the dates indicated below.

ANALYSIS

This ordinance amends Title 12 of the Los Angeles County Code to provide that the Calabasas Landfill may not be used for refuse originating outside a certain identified watershed area. The watershed area includes the cities of Hidden Hills, Agoura Hills, Westlake Village and Thousand Oaks as well as portions of the City of Los Angeles and certain unincorporated areas in the vicinity of the landfill.

October 5, 1990

DE WITT W. CLINTON  
County Counsel

By: *Judith A. Fries*  
JUDITH A. FRIES  
Principal Deputy County Counsel

An ordinance amending Title 12 of the Los Angeles County Code, relating to the disposal of solid waste at the Calabasas Landfill.

The Board of Supervisors of the County of Los Angeles ordains as follows:

SECTION 1. Section 12.48 is hereby added to the Los Angeles County Code to read as follows:

CHAPTER 12.48

SOLID WASTE DISPOSAL

Section 12.48.010 PERSON DEFINED. As used in this chapter, 'person' means any individual, partnership, committee, association, firm, corporation, public agency, public entity or any other organization or group, public or private.

Section 12.48.020 SOLID WASTE DISPOSAL FACILITY DEFINED. As used in this chapter, "solid waste disposal facility" means a public or private facility used for the final deposition of solid waste onto land.

Section 12.48.030 CALABASAS LANDFILL DEFINED. As used in this chapter, "Calabasas Landfill" means that solid waste disposal facility owned by the County of Los Angeles and operated by County Sanitation District No. 2 of Los Angeles County, located at 5300 Lost Hills Road, Agoura, California.

Section 12.48.040 USE OF CALABASAS LANDFILL. No person shall dispose of or tender for disposal at the Calabasas Landfill any solid waste which has its origin outside the wasteshed area identified on Exhibit "A" attached hereto. Said wasteshed area includes the incorporated cities of Hidden Hills, Agoura Hills, Westlake Village and Thousand Oaks; that portion of the City of Los Angeles bordered by the northerly line of Township 2 North on the north, Interstate Highway 405 on the east, Sunset Boulevard and the Pacific Ocean on the south, and the city boundary on the west; and certain unincorporated areas in the counties of Los Angeles and Ventura, as shown on Exhibit "A".

SECTION 2. If any part, section, subsection, paragraph, sentence, clause or phrase of this ordinance is held invalid or unconstitutional for any reason by any court, that decision does not affect the validity or constitutionality of the remainder of this ordinance. The Board of Supervisors declares that it would have adopted each part of this ordinance irrespective of the validity of any other part.

SECTION 3. This ordinance shall not become effective until the Joint Powers Agreement for the Calabasas Landfill between the County of Los Angeles and County Sanitation District NO. 2 of Los Angeles has been amended to be consistent with the provisions of this ordinance.

# EXHIBIT A

The map displays the watershed boundary of the Pacific Ocean, covering a large portion of Los Angeles County. The boundary is marked with a thick, hatched line. Key geographical features include the San Gabriel River, San Antonio River, and San Diego River. Major cities and towns shown are Los Angeles, San Fernando, Santa Monica, and Malibu. The map also includes the Pacific Ocean to the south and the Golden State Freeway to the north. The watershed boundary is marked with a thick, hatched line. The map also shows the Pacific Ocean to the south and the Golden State Freeway to the north.

## **Puente Hills Landfill Ordinance**

**ORDINANCE REGULATING THE EXTENT OF USE  
OF THE PUENTE HILLS LANDFILL SITE**

The Board of Directors of County Sanitation District No. 2 of Los Angeles County do ordain as follows:

**1. REGULATION OF EXTENT OF USE**

No person shall dispose of nor tender for disposal at the Puente Hills Landfill site any refuse which has its origin within any city having a population in excess of 2,500,000 and which either owns or is entitled to the use or possession of at least one operating sanitary landfill site. The foregoing prohibition shall not apply to those portions of any such city that may lie within the boundaries of any County Sanitation District of Los Angeles County. The area described above shall hereafter be termed "excluded area".

**2. IMPLEMENTATION**

All persons who collect or intend to collect refuse originating within the excluded area and who propose to utilize the Puente Hills Landfill site shall register their vehicles with the District. All such persons shall identify the quantity of refuse he or she collects within and outside the excluded area. Such persons shall also furnish to the District such additional information as the District's Chief Engineer and General Manager deems necessary to insure compliance with this ordinance.

The Chief Engineer and General Manager may implement this ordinance by utilizing any system that fairly limits the tonnage of any such person to an amount which he has determined will originate outside of the excluded area.

### **3. VIOLATIONS**

Any person who violates this ordinance shall, in addition to the other penalties provided by law, be excluded from the utilization of the Puente Hills Landfill site for such period of time as may be deemed appropriate by the Board of Directors of this District provided such period does not exceed six months. No such determination shall be made until the suspected violator has been afforded a hearing upon proper notice.

### **4. VALIDITY**

If any part, section, subsection, paragraph, sentence, clause or phrase of this Ordinance is held invalid or unconstitutional for any reason by any court, that decision does not affect the validity or constitutionality of the remainder of this Ordinance. The Board of Directors declares that it would have adopted each part of this Ordinance irrespective of the validity of any other part.

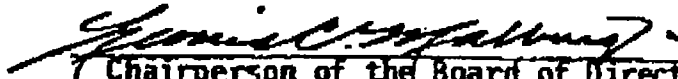

### **5. DEFINITIONS**

- A. The Puente Hills Landfill site shall mean the sanitary landfill site operated by the District which is located at 2800 South Workman Hill Road, Whittier, California 90601.
- B. Person shall mean any individual, partnership, committee, association, corporation, public agency and any other organization or group of persons public or private.
- C. Chief Engineer and General Manager shall mean the Chief Engineer and General Manager of the County Sanitation Districts of Los Angeles County or any person acting under his authority in the employ, or acting in the beneficial interest, of the District.

6. EFFECTIVE DATE

This ordinance shall become effective 30 days after enactment except that the provisions hereof respecting the limitation on the use of the Puente Hills Landfill site shall become effective January 1, 1982.

  
Chairperson of the Board of Directors  
of County Sanitation District No. 2  
of Los Angeles County

Sanitation Districts  
Ordinance No. 7

**ORDINANCE NO. 7**

**ORDINANCE REGULATING THE EXTENT OF USE  
OF THE DISTRICTS' SOLID WASTE FACILITIES**

The Board of Directors of County Sanitation District No. 2 of Los Angeles County do ordain as follows:

**1. REGULATION OF EXTENT OF USE**

No person shall dispose of nor tender for disposal at the Districts' solid waste facilities any refuse which has its origin within any county having a population in excess of 1,500,000 and which either owns or is entitled to the use or possession of at least one operating sanitary landfill site. The foregoing prohibition shall not apply to refuse originating within any county in which the Districts' solid waste facilities are located. The area described above shall hereafter be termed "excluded area".

**2. IMPLEMENTATION**

All persons who collect or intend to collect refuse originating within the excluded area and who propose to utilize the Districts' solid waste facilities shall register their vehicles with the District. All such persons shall identify the quantity of refuse he or she collects within and outside of the excluded area. Such persons shall also furnish to the District such additional information as the Districts' Chief Engineer and General Manager deems necessary to insure compliance with this ordinance.

The Chief Engineer and General Manager may implement this ordinance by utilizing any system that fairly limits the tonnage of any such person to an amount which he has determined will originate outside of the excluded area.

### 3. VIOLATIONS

Any person who violates this ordinance shall, in addition to the other penalties provided by law, be excluded from the utilization of the Districts' solid waste facilities for such period of time as may be deemed appropriate by the Board of Directors of this District provided such period does not exceed six months. No such determination shall be made until the suspected violator has been afforded a hearing upon proper notice.

### 4. VALIDITY

If any part, section, subsection, paragraph, sentence, clause or phrase of this ordinance is held invalid or unconstitutional for any reason by any court, that decision does not affect the validity or constitutionality of the remainder of this ordinance. The Board of Directors declares that it would have adopted each part of this ordinance irrespective of the validity of any other part.

### 5. DEFINITIONS

- A. The Districts' solid waste facilities shall mean Spadra Landfill Site No. 2 in Pomona, California; Scholl Canyon Landfill Site No. 4 in Glendale, California; Calabasas Landfill Site No. 5 in Agoura, California; Puente Hills Landfill Site No. 6 in Whittier, California; and South Gate Transfer Station in South Gate, California.
- B. "Person" shall mean any individual, partnership, committee, association, corporation, public agency and any other organization or group of persons public or private.

C. "Chief Engineer and General Manager" shall mean the Chief Engineer and General Manager of the County Sanitation Districts of Los Angeles County or any person acting under his authority in the employ, or acting in the beneficial interest, of the District.

6. EFFECTIVE DATE: URGENCY CLAUSE

This ordinance is an ordinance for the immediate preservation of the public peace, health, and safety, and shall take effect immediately in accordance with Section 25123 of the Government Code of the State of California.

Due to the number of recent early closures of the Districts' Puente Hills landfill required by the daily tonnage restrictions of the conditional use permit for the site, it is necessary to exclude refuse originating from within other counties having a population in excess of 1.5 million and an adequate disposal system in order to prevent adverse effects on the environment, and to conserve the limited landfill capacity needed for the safe and convenient disposal of refuse originating within this county.

**Sanitation Districts  
Ordinance No. 7A**

**ORDINANCE AMENDING ORDINANCE NO. 7  
REGULATING EXTENT OF USE  
OF SOLID WASTE FACILITIES**

**ORDINANCE NO. 7A**

**ORDINANCE AMENDING ORDINANCE NO. 7 REGULATING  
THE EXTENT OF USE OF THE DISTRICTS' SOLID WASTE FACILITIES**

The Board of Directors of County Sanitation District No. 2 of Los Angeles County ordains as follows:

**A. ORDINANCE NO. 7 REGULATING THE EXTENT OF USE OF THE DISTRICTS' SOLID WASTE FACILITIES, EFFECTIVE JULY 25, 1984, IS AMENDED BY DELETING SECTION 1 AND ADDING THERETO THE FOLLOWING:**

**1. REGULATION OF EXTENT OF USE**

No person shall dispose of nor tender for disposal at any of the Districts' solid waste facilities any refuse which has its origin within any county having a population in excess of 2,000,000 and which county either owns or is entitled to the use or possession of at least one operating sanitary landfill site. The foregoing prohibition shall not apply to refuse originating within any county in which the Districts' solid waste facilities are located. The area described above shall hereafter be termed "excluded area", and refuse originating from this area termed "excluded refuse"; all other areas shall be termed "non-excluded area", and refuse from those areas termed "non-excluded refuse".

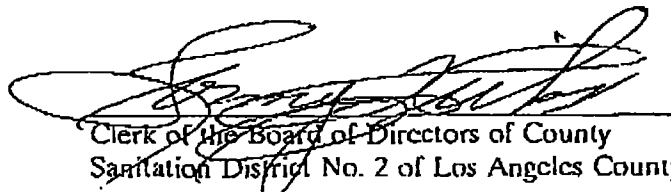

Notwithstanding the foregoing prohibition, if non-excluded refuse is processed along with otherwise similar excluded refuse at a material recovery facility (as defined in Section 50000(a)(4) of the California Public Resources Code) for purposes of complying with the solid waste diversion requirements contained in Division 30 of the California Public Resources Code, then processed mixed residual material from the material recovery facility may be accepted for disposal at the Districts' solid waste facilities to the extent that the total weight is equal to or less than the residue from the non-excluded refuse processed at the material recovery facility. The person tendering such waste shall be responsible for providing or causing others to provide documentation acceptable to the Chief Engineer and General Manager as to the quantities of non-excluded refuse delivered to the material recovery facility for processing, and current operating parameters of the material recovery facility sufficient to determine conformance with the provisions of this paragraph. The right provided by this paragraph shall also be subject to a physical inspection of the material recovery facility by the Chief Engineer and General Manager.

**B. EFFECTIVE DATE**

This Ordinance shall become effective thirty days from the date of adoption.

## **Scholl Canyon Landfill Ordinance**

**AN ORDINANCE OF THE COUNCIL OF THE CITY OF GLENDALE  
REGULATING DISPOSAL OF REFUSE**

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF GLENDALE:

## REGULATING DISPOSAL OF REFUSE

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF GLENDALE:

SECTION 1.. Division 4, Article IV of Chapter 24 of the Glendale Municipal Code, 1964, is added to the Glendale Municipal Code, 1964, to read:

Sec. 24-40. Disposal of Refuse, Prohibition. No individual, partnership, committee, association, corporation, public agency, public entity or any other organization or group of persons, public or private, shall dispose or tender for disposal within the City of Glendale, any refuse or waste which has its origin within any city which either owns, operates, maintains or regulates a Class I or Class III non-restricted sanitary landfill as defined by the State Water Resources Control Board, or is entitled to the use or possession of a Class I or Class III non-restricted sanitary landfill site within its municipal limits. Furthermore, a watershed area is hereby identified as the only geographical area and the communities within, permitted to use Scholl Canyon Landfill for the disposal of acceptable wastes that originate within said area. The watershed area is specifically described as the Los Angeles County incorporated cities of Glendale, La Canada Flintridge, Pasadena, South Pasadena, San Marino, and Sierra Madre; the Los Angeles County unincorporated communities known as Altadena, La Crescenta, Montrose; the unincorporated area bordered by the incorporated cities of San Gabriel, Rosemead, Temple City, Arcadia and

Pasadena; and the unincorporated area immediately to the north of the City of San Marino bordered by the City of Pasadena on the west, north and east sides.

SECTION 2. This ordinance shall become effective on December 28, 1987.

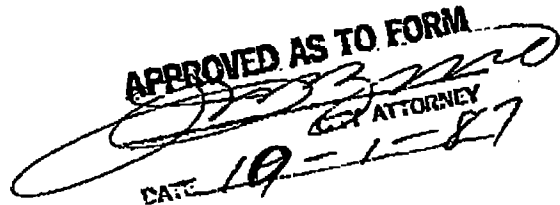

Adopted by the Council of the City of Glendale on the 6th day of October, 1987.

  
Mayor
